At the last business meeting, Gregg talked about
the heat settings for the cottages on Kossuth
Lane. The floor heat is your primary heat and
your heat pump is the back up. The thermostats
for the floor heat are located in your bedroom
and living room. The thermostat for your back
up heat is in the hall. If you are unsure if your
heat set properly, please call maintenance to
come adjust it for you. 724-875-1462
